WHAT THIS IS

How far we go in school.

Educational attainment is the highest level of school an adult has completed. This reference gives **every state (plus D.C.) its own page** showing the share of adults 25+ who finished high school and who hold a bachelor's degree or higher — the clearest measure of a state's education level.

ON EACH PAGE

- **Bachelor's Degree or Higher** — share of adults 25+ with a 4-year degree or beyond
- **High School or Higher** — share of adults 25+ who completed high school
- **National Rank** — where the state ranks on bachelor's attainment
- **vs. National Average** — how the state compares to the U.S. as a whole

Source. U.S. Census Bureau, American Community Survey (ACS), 2024 1-year estimates, population age 25 and over. Attainment measures adult residents' completed education — not school graduation rates or college completion rates.

THE NATIONAL PICTURE

America’s education level

35.6%
U.S. BACHELOR’S+
adults 25+, 2024

89.6%
U.S. HIGH SCHOOL+
adults 25+, 2024

64.2%
HIGHEST BACHELOR’S+
District of Columbia

24.1%
LOWEST BACHELOR’S+
West Virginia

As of 2024, about **89.6%** of U.S. adults 25 and older have finished **high school**, and **35.6%** hold a **bachelor’s degree or higher** — both all-time highs. But the range across states is wide.

Bachelor’s attainment runs from **24.1%** in West Virginia to **64.2%** in District of Columbia (and 47.3% in Massachusetts, the top state). High-school completion ranges from **84.7%** in California to **94.9%** in Vermont. The pages that follow give both figures for every state.
